

Mind, Versatility, Breeding & Beauty... HE'S GOT IT ALL.

"Virgil has been such a special horse in my career and to me personally as a horseman. His athletic ability and confidence is portrayed every time he walks into an arena. He just has an eye-catching presence and is a pleasure to be around. Not only does this horse have incredible athleticism and an exceptionally good mind, he also has outstanding breeding and conformation. His all-round package would help improve any type of discipline- from cow horses to reining horses, barrel horses to rope horses, sorting horses to penning horses, trail horses to ranch horses."
